

Issue:

Bulidout.cfg from installer:

```
[buildout]
extends = https://lab.node.vifib.com/nexedi/slapos/raw/1.0.112/software/erp5/software.cfg
shared-part-list =
    /opt/slapgrid/read_only_shared
    /opt/slapgrid/shared
```

<https://lab.node.vifib.com/nexedi/slapos/raw/1.0.112/software/erp5/software.cfg>

```
[buildout]
extends =
    ../../stack/erp5/buildout.cfg
```

```
# Test Suite: ERP5-MASTER ran at 2019/06/20 17:16:16.546716 UTC
#      10 failures, 0 errors, 6038 total, status: FAIL
```

```
[erp5]
revision = 80994259537cc30d255d9230aabaf47dce621bf8
```

<https://lab.node.vifib.com/nexedi/slapos/raw/1.0.112/stack/erp5/buildout.cfg>

```
[erp5]
recipe = slapos.recipe.build:gitclone
repository = https://lab.nexedi.com/nexedi/erp5.git
branch = master
```

Docs:

<https://pypi.org/project/slapos.recipe.build/#revision-branch-priority>

If both revision and branch parameters are set, revision parameters is used and branch parameter is ignored:

as thre result installer trying ro install **80994259537cc30d255d9230aabaf47dce621bf8** revision.
