  3 Interviews -> 3 versions questionnaire and configuration spreadsheet

▼ Details

The goal of this class is to teach how to perform an initial consulting process for an ERP implementation.
We will use an online questionnaire with the most important questions to ask to a company during this process.
The objective of the questionnaire is to identify those business processes which are not successful enough and which can be improved using an ERP.

Register yourself to "Evaluation Online Questionnaire"

Evaluation Online Questionnaire (Register for Supinfo Students) **(Register for all others)**:
