

Overview

This tutorial teaches how to install and use the ERP5 Virtual Machine. The virtual machine is recommended for end users willing to try ERP5 or students taking any of the available online courses (such as [OSOE](#)).

This guide will help you obtain a pre-configured ERP5 instance based on pre-defined business templates and categories specifically aimed for evaluating ERP5 and working with it within a course setting.

Requirements

- VMware Player
- Disk Space: 7 GB
- Free RAM: 2 GB

▼ Details

The ERP5 Virtual Machine is distributed in vmx format. You can use VMWare Player to run the VM. You can get it at

https://my.vmware.com/web/vmware/free#desktop_end_user_computing/vmware_player/7_0.

Download the latest Release of the ERP5 VM

- [Latest Release of the ERP5 VM on Sourceforge](#)

▼ Details

Download the latest release of the ERP5 Virtual Machine from sourceforge:

<https://sourceforge.net/projects/osoe/files/latest/download?source=files>

The file is called "ERP5Release-x.x.x-osoe-vmx.zip".

Extract the VM

□ ▼ Details

Extract the downloaded zip file ERP5Release-x.x.x-osoe-vmx.zip

Open ERP5Release Folder

□ ▼ Details

Open the extracted folder named "ERP5Release".

Open ERP5Release.vmx with VMPlayer

□ ▼ Details

Open the file "ERP5Release.vmx" with the VMWare Player.

Click "I moved it"

□ ▼ Details

A dialog will pop up to ask you if you *moved* or *copied* the VM. It is important that you click "I moved it", because than VMPlayer will keep the predefined MAC Address which is important for the VM to work correctly.

Click and press Enter

□ ▼ Details

Click with the mouse inside the VM and press Enter to start it.

Enter User Name "tux"

▣
▼ Details

Enter the user name "tux"

Enter Password "linux"

▣
▼ Details

Enter the password "linux"

Course Material and ERP5 Instance

▣
▼ Details

After you logged in Firefox will start with two tabs: One for the course material, where you can find the readings and tutorials and one with your ERP5 Instance.

Note: It can take up to 15 minutes until the ERP5 Instance is accessible

Click ERP5 Tab and Log in

▣
▼ Details

After clicking on the second Firefox Tab called **ERP5** you see the ERP5 Login Form. Username and password are already filled in, they are the same as the VM password: "tux" and "linux". Click the **Login**
Note: It can take up to 15 minutes until the ERP5 Instance is accessible

Ready to start with Session 1

▣
▼ Details

You are now logged into ERP5 and ready to start with Session 1 of the OSOE Lecture [ERP: Theory, Practice and Configuration](#).

ERP5 Business Templates

You can extend your ERP5 installation by installing a business template. You can find list of business templates [here](#).
